Kids Are Kids! Therapy and Education Centre Inc. is a community based not-for-profit organisation established in 1997 to meet the needs of children who may not "meet diagnostic criteria" for government funded therapy services or who are placed on lengthy waitlists at a time when early intervention is crucial.

Kids Are Kids! was founded at a time when there were limited choices available for families who had children with difficulties and/or disabilities. One of the primary goals of the organisation was to provide families a choice in the services they could access for their child, at an affordable price.

The founders recognised that often the cost of services for children who have long term needs are prohibitive for families and there needed to be an alternative to private therapy agencies. Today, these issues unfortunately still remain the same.

We need help to keep service costs to a minimum for families. Kids Are Kids! seeks funding from government, community grants, donations and fundraising activities to fully or partially fund the cost of services to families. Kids Are Kids! has been named as beneficiaries of Appealathon for the year 2004/05. The organisation has also secured ongoing sponsorship through APEX Carols by Candlelight.

There are many ways in which you or your business may choose to support Kids Are Kids! All monetary donations are tax deductible and in some cases individuals or organisations have chosen to request the money goes towards a specified program or piece of equipment. Where this is not the case, monies donated will go into the provision of much needed resources and/or services for the families attending Kids Are Kids!
